ACKNOWLEDGMENT

I would like to thank the American Association for Artificial Intelligence (AAAI) for organizing this workshop on Intelligent Adaptive Agents. I would like to thank the program committee members for establishing this workshop, and providing valuable opinions and suggestions to me and to the authors of accepted papers: Jaime Carbonell, Gerald DeJong, Tim Finin, Brian Gaines, Diana Gordon, Yves Kodratoff, Ryszard Michalski, Ashwin Ram, Nigel Shadbolt, Reid Simmons, Walter Van de Velde, Brad Whitehall, and Stefan Wrobel.

A special thanks to Diana Gordon for helping with organizational issues of the workshop, and to all other reviewers who helped by reviewing the submitted papers: John Doulami, Anthony Francis, Thomas Haynes, Eric Jones, Mark Maloof, Herve Mignot, Caroline Ravise, Juan Carlos Santamaria, Michele Sebag, Rahul Sukthankar, and Haleh Vafaie.

I would like to thank the invited speakers, Barbara Hayes-Roth and Brian Gaines for their kind commitment to give talks at the workshop. I would like to thank the chairs of the discussion sessions, Sandip Sen and Kerstin Voigt, for their effort to add more depth to the workshop through a set of discussion sessions. I would also like to thank all authors of submitted papers for their interest in the workshop (see the author index).

I would also like to thank the American Association for Artificial Intelligence (AAAI) for sponsoring this workshop, and thank the AAAI Press for printing the working notes of the workshop, Special thanks to Carol Hamilton, Subbarao Kambhampati, and the AAAI staff for their help. I would also like to thank the Machine Learning and Inference Laboratory and the School of Information Technology and Engineering at George Mason University for supporting the workshop, Thanks to Andrew Sage and Ryszard Michalski.
